

*Stay In The Know With
United Security Assurance*

E-Application = Easier Business Submission

Are you looking for an easy way to expedite the application process? United Security Assurance has created electronic applications for your use. The *LifeStyle Solutions*, *LifeStyle Solutions Select* and our new, *SecureHorizons*, short term care plan are all available with this technology.

The e-application*, with the DocuSign technology, allows you to easily complete an application with your client, especially if you are remote selling. No more having to wait until your client returns the completed application, which could take weeks, if not longer, through the mail. The e-application mimics our paper application and allows you to submit a completed application with a few clicks of a mouse. Once your client e-signs the application, it will automatically be sent to our underwriting department for processing. Within 24 hours, you will receive confirmation that your application has been received and is being processed.

The e-application can be found at www.usaofpa.com, in the “**Agent Access Area**”, under “**My States**”. If you have never utilized our e-application before, we have also created a tutorial for your learning experience. When you use the e-application make sure to save a copy for your records, as it is always helpful to have a copy for your reference. We are confident that this e-application will free up your time and allow you to make more sales. If you have any questions, or would like a live demo, please contact our Marketing Department today!

*E-application not available for LSS and LSS Select products in every state.
