LifeStyle SolutionsSM

Tax-Qualified Long Term Care Insurance Plan

Our LifeStyle SolutionsSM insurance plan was designed with product features, options, and service programs to help individuals protect their financial security and remain independently at home as they age. It is important to know that our Service Program can be utilized prior to being on claim.

We have realized an approximate 60% issue rate with this plan when a client has already been declined by another carrier. In fact, we issue this plan 75% of the time when someone has already been declined versus the LSS Select (Impaired Risk Plan). Are you working with a client who might benefit from this plan? Call our office today for more details or a prequalification.
